Subject: Southeastern Minnesota GIS Users Group

Hello all and Happy New Year.

I have been told that there once was a GIS users group for this area of Minnesota. Does the users group still exist? If not, I would like to suggest starting a Southeastern Minnesota GIS Users group. This group would include city, county, and watershed staff within AMC District 9. A GIS users group is a great way to encourage data- and infromation-sharing as well as cost-sharing between organizations who wish to create and maintain GIS data bases. Monthly meetings with educational presentations, product and project demonstrations, and tours of local GIS facilities, can also contribute to the ongoing development of GIS users. Goodhue County would be pleased to host the first meeting which is tentatively scheduled for February.

If you are interested in being involved, please let me know and also pass this information on to others in your organization who may be interested. A meeting date and agenda will be sent out by the end of January.

Have a great day,
Sarah

Sarah,
Pete Knutson, formerly of the DNR, now Stearns County (currently on military leave) started the group. We only met a few times and had to scrap it due to lack of interest. I think it is a great idea if you have the time to organize/run it. I kept the mailing list/database and should still have it for the group if you want it. By the way, what is AMC District 9?

SE MN SWCD's had a user group started a couple of years ago, but it kind of fizzled after one meeting. I think it's a great idea to start again. I would suggest however inviting the SWCD's in the SE as well. Maybe you intended to, but they weren't listed in your mailing as receiving the invite. If you'd like I could provide you with their email addresses so you could also send them an invitation. Thanks

Hello Sarah

I was pleased to hear that someone is taking the initiative to get a GIS user group started in this part of the state. Thank you for getting this started. I know they have an active group in the northern part of the state and I was almost tempted to attend a meeting up there.

I am interested in getting involved so please send me info when you have scheduled the meeting date.

Thanks!

Sarah-
We did meet either once or twice a couple of years ago but nothing has happened since. The last meeting I can remember was in Fillmore county at
the SWCD office. I would be interesting in being involved, I might not make
all the meetings but it would be nice to know when they are going on.

Andy Henschel is no longer with the SWCD in Freeborn he is with the county
now. I don't have his email but he might be interested.

Thanks
matt

Hello everyone.
Attached is the tentative agenda for the first SE MN GIS Users Group meeting
to be held Thursday, February 26th, from 10am - 2:30pm. The meeting will be
held in the Goodhue County Law Enforcement Center, 430 West 4th Street, 2nd
Floor, Red Wing, MN 55066. Also attached is a map of local restaurants and
sandwich shops around Red Wing. Refreshments will be provided at the
meeting but lunch will be the responsibility of the attendee. For this
first meeting, it would be great to see examples of how your agencies are
utilizing GIS technology. Feel free to bring in maps to have on display
during the meeting.

If there are other people in your agency that would be interested in
attending, please pass on this information or have them contact me. If

Yep! I have the agenda :o)

I was just looking over the list of southeastern counties involved...you know, you guys have a fantastic opportunity to pull together and get a lot of bang for the buck! Because of the RCGIS User Group, everyone one of us benefits because we work together on projects such as aerial photo, LiDAR, and physical feature updats. Instead of each individual entity submitting a separate RFP, everything is submitted in one single RFP, which cuts down on project costs. We also pool our money together ...the county contributes half, and the user group contributes the other half. It's a great thing!!

I'm glad that one of the RCGIS User Group members will be able to present that day!

:o)

Subject: Yesterday's Gis Meeting

Hi Sarah,

Just wanted to thank you, again, for hosting yesterday's meeting. It reinforced the point that we have a lot of catch-up to do here in Dodge. I made that point to our Environmental Quality director, and he pretty much agrees, but is not quite sure where to begin. As in many situations, the politics involved here are preventing us from developing a clear plan, though we do agree that we would like to develop a plat-based, interactive county map, perhaps somewhat like yours. We're very unsure as to what type of capital outlay we would have available, and that's assuming we can convince our County Commissioners of the benefits. (Don't hold your breath).

Just from the brief descriptions I heard from you, and the chats I had with Rice & Steele counties, it sounds as if you got to where you are by a slightly different route, one that might work for us, as well. Anyway, I would like to find out from you, probably in little words since I'm not the most experienced, how you started the interactive map process, and what suggestions you may have for me. If it's okay, I'd like to give you a call sometime next week, and hear what ideas you may have.

Have a good weekend.

Hi Sarah-

Just wanted to send along a big "Thank You" for organizing the users group meeting yesterday. I think this group has the potential to be a terrific benefit to all involved.

I hope we can expand on this core group. I plan an on contacting out county P & Z Director and also the City Planner for Owatonna and encourage them to participate. The more, the merrier!

See you in couple of months,

Sarah-
I found an agenda from the Jan. 25, 1998 meeting of the SE MN GIS User Group. I can't save mine as a pdf, so I saved an image. (I also can't seem to get it to look straight!) I can send you a hard copy if you'd prefer.

Also, will you please add the following people to the list:

Justin Watkins, Cannon River Watershed Partnership, justin@crwp.net
I was going to include Steve Pahs, but I see he's already on the list.

Thanks!
Michelle

Hi everyone.
Meeting agendas and minutes for the GIS Users Group are now posted on the Goodhue County website: www.co.goodhue.mn.us (*Then click on "GIS Users Group"*) There is also some information posted from previous users group meetings in 1998. All of the documents are in .pdf format so you can print them out easily.

Please pass on this information to people in other departments or agencies who you think would be interested in taking part in the GIS Users Group.
