ArcGIS for Land Records – Helpful Links and Information

Resource Center Content

The ArcGIS Resource Center is the main place to go to obtain much of the information on the ArcGIS for Land Records solution. It's also where you'll access all the template maps and applications that are part of the ArcGIS for Land Records solution.

- Main Page - **http://resources.arcgis.com**
- Local Government Page - **http://resources.arcgis.com/content/local-government**
    - Template Gallery - **http://localgovtemplates2.esri.com/gallery/gallery.html**
    - Blog - **http://blogs.esri.com/Dev/blogs/localgovernment/default.aspx**
- Land Records Page - **http://resources.arcgis.com/content/local-government/land-records**
    - WP - **http://www.esri.com/library/whitepapers/pdfs/loading_data_parcel_fabric.pdf**

Training

There are just a couple of training courses related to the parcel fabric component of the ArcGIS for Land Records solution. These are self paced web courses that you can find from the main training page by searching for the term "parcel."

- Main Training Web Page - http://training.esri.com/gateway/index.cfm
- Web Courses on the Parcel Fabric
    - Introduction to Editing Parcels Using ArcGIS Desktop 10
        - **http://training.esri.com/acb2000/showdetl.cfm?DID=6&Product_ID=992**
    - Managing Parcel Data Using ArcGIS Desktop 10
        - **http://training.esri.com/acb2000/showdetl.cfm?DID=6&Product_ID=993**

Services

Esri Professional Services has 2 packages to help accelerate the migration to managing parcel data and editing parcels within the parcel fabric component of the land records solution.

- Parcel Data Migration Jumpstart
- Parcel Maintenance Workshop

For additional information on any of these items or for questions related to the ArcGIS for Land Records solution please contact Sam Klimoski (651-454-0600 ext. 8365, sklimoski@esri.com).
