Thursday, January 20th, 2011 10am – 12:30pm

QUESTIONS:
Debbie Persoon Bement
507-286-7598 debbie.persoon@state.mn.us

AGENDA

9:30 am Meet & Greet

10:00 am
Overview of Mn/DOT GIS Web Services, Public applications, and data.

10:30 am
A presentation of the flood support efforts for both the Spring, 2010 and Fall, 2010 statewide events.
Our presentation will cover the applications, map services, and data capture that occurred. We can also discuss the various ways we partnered with the public.

11:00 am
A demonstration and training session for the Spring 2011 flood application that are designed to have local (County) partners enter road status and damage information.
We will also review the options that our partners will have for providing information to Mn/DOT to ensure we have common road view of all roads in the State.

12:00 noon
User group discussion:

- **Statewide Health Improvement Program (SHIP) – Online GIS Application**
  - Update on project progress.
  - Using address points to geocode within the region.
  - Which County staff contacts to list on regional website?
- **Future meeting dates.**
