

## **Southeast Minnesota GIS User Group Meeting**

**February 28<sup>th</sup>, 2019 8:30 – 12:15**

Hosted by Rochester Public Utilities

Community Room at RPU Service Center

4000 E River RD NE

Rochester MN 55906

### **Agenda**

**8:30 – 9:00: Networking/Arrival**

**9:00 – 9:15: Welcome/Introductions**

**9:15 – 10:00: Presentation**

- **What Combing Amazon Web Services and ESRI Enterprise Can Do – Kate Scheurer, OPU**  
*Walk through OPU's current Amazon Web Services structure and how we deployed ESRI Enterprise. Highlighting pros and cons of our new structure and the process getting there. Also touch on how we plan on taking advantage of our new capabilities for Utility Network and company engagement.*

**10:00 – 10:15: Break**

**10:15 – 11:00 Presentation**

- **Asset Management Systems: Build It and They Will Come...or Will They – Christy Shostal, Kevin Morrissey, Kelsey Budahn, RPW**  
*In 2013, recognizing trends in GIS and workflow management, as well as the upcoming risks due to a flood of retirements, Public Works acted on the need to develop a work and Asset Management System (AMS). The presentation will consist of the history of the project, the groups/departments using the application, a demonstration of a work flow, the challenges and successes and next steps.*

**11:00 – 11:15 Break**

**11:15 – 12:15 Presentation/Closing**

- **Creating and Sharing Functional Offline Mobile Maps – Jay Forstner, RPU**  
*With the advent of Mobile Map Packages (MMPKs) ESRI has created the next generation of mobile data. The presentation will look at creating, sharing and using MMPKs on a mobile device.*
- **Geospatial Advisory Council Activities – TBD**  
*Progress on statewide standards, prioritization for MnGEO projects, news at the GAC itself*
- **State of Minnesota Updates – Jim Bunning, MNIT**

**12:15 – Optional Lunch**
